JACKET MAGNIFICO

ROAD

MAN

The **Magnifico** Jacket is the ideal companion for winter rides with temperatures close to zero. It guarantees high thermal stability and resistance to rain but at the same time considerable breathability. High quality details and finishes so as to have a garment that always adheres to the body but without being too tight, using laser cutting and easy tape where possible. The inclusion of the personalized reflex band has a double function: safety and, as per our history, MBwear elegance.

COMPOSITION

KINGSTONE 1 layer
85% Polyamide 15% Elastane

2 layer
100% Polyester

3 layer 94% Polyester 6% Elastane

KAUAI
75% Polyamide 25% Elastane

GGAQ
73% Polyamide 27% Elastane

SIZE MAN
FROM S TO 3XL

WOMEN'S VERSION AVAILABLE

SIZE WOMAN
FROM XS TO XL

LONG SLEEVE JERSEY BELLEZZA

ROAD

MAN

The **Bellezza** jersey is the ideal garment for mid-season, for temperatures between 8 and 15 degrees. The materials used have the aim of better regulating body heat, facilitating considerable breathability but protecting from rain thanks to an internal membrane. High quality details and finishes so as to have a garment that always fits close to the body but without being too tight, using laser cutting and easy tape where possible. The inclusion of the personalized reflex band has a double function: safety and, as per our history, MBwear elegance.

COMPOSITION

TORNADO 1 layer
85% Polyamide 15% Elastane

2 layer
100% Polyester

3 layer
89% Polyester 11% Elastane

KAUAI
75% Polyamide 25% Elastane

GGAQ
73% Polyamide 27% Elastane

BIB TIGHTS DOLCE VITA

MAN

The **Dolce Vita** Bib tights is made with a fabric that ensures maximum freedom of movement thanks to the cut used and flat seams. The back has an elastic X band to keep the garment adherent but without feeling it over a band that gently wraps the waist, so as to protect you from the wind and contribute to the feeling of comfort. Seams minimized even in the ankle area where there is also a reflex strip that combines safety and style MBwear.

COMPOSITION

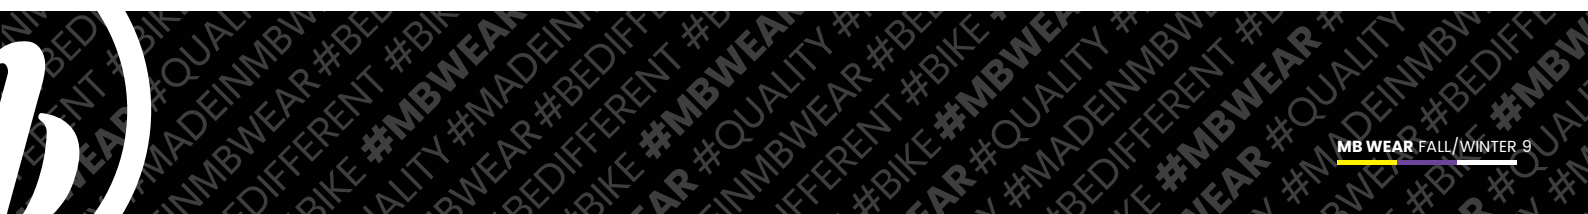

BLIZZARD
86% polyamide 14% elastane

20440
83% polyamide 17% elastane

WOMEN'S VERSION AVAILABLE

GRAVEL

JACKET MAGNIFICO

GRAVEL

MAN

The **Magnifico** Jacket is the ideal companion for winter rides with temperatures close to zero. It guarantees high thermal stability and resistance to rain but at the same time considerable breathability. WE HAVE INSERTED A ZIP POCKET IN THE FRONT (HEART SIDE) AND TWO SIDE POCKETS IN THE SIDES (usually used for recovering waste to avoid polluting). High quality details and finishes so as to have a garment that always adheres to the body but without being too tight, using laser cutting and easy tape where possible. The inclusion of the personalized reflex band has a double function: safety and, as per our history, MBwear elegance.

COMPOSITION

KINGSTONE 1 strato
85% Poliamide
15% Elastane

2 strato
100% Poliestere

3 strato
94% Poliestere 6% Elastan

KAUAI
75% Poliamide 25% Elastane

LONG SLEEVE JERSEY BELLEZZA

GRAVEL

MAN

The **Bellezza** jersey is the ideal garment for mid-season, for temperatures between 8 and 15 degrees. The materials used are intended to better regulate body heat, facilitating considerable perspiration but protecting from rain thanks to an internal membrane. In the front we have inserted a zip pocket (heart side) and two side pockets in the sides (usually used for the recovery of waste to avoid pollution). High quality details and finishes in order to have a garment always adherent to the body but without tightening, using where possible laser cutting and easy tape. The insertion of the custom reflex band has the dual function: safety and, as from our history, MBwear elegance.

COMPOSITION

TORNADO 1 layer
85% Polyamide 15% Elastane

2 layer
100% Polyester

3 layer
89% Polyester 11% Elastane

KAUAI
75% Polyamide 25% Elastane

SOCKS SIBERIA

CHARACTERISTIC

The part of the foot is composed of a very thick texture on the toe, sole and heel, in order to guarantee extreme comfort (absorbs impacts throughout the foot and protects the Achilles tendon thanks to the 3D structure) and protection from the cold.

Compression aimed at promoting circulation, essential in the winter to combat the cold.

Height higher than other models to better protect the tibial area from the air.

Use of the best Merino wool on the market, the only type of wool that is truly perfect for sports use.

COMPOSITION

80% Merino Wool
14% Polyamide (Q-Skin)
6% Elastane

MAIN MATERIAL

Compared to synthetic fabrics, Merino wool is active and reacts to changes in body temperature by keeping warm in cold weather, but by dispersing heat and humidity in hot weather. Unlike synthetic fabrics, Merino wool is able to absorb water vapor, releasing it outwards and keeping the wearer more dry. At the same time, it manages to absorb the sweat molecules responsible for odors, which are released only during the washing phase.

Merino wool fibers are extremely thin, allowing them to bend much more than traditional wool fibers. This makes Merino wool soft and delicate on the skin.

Merino wool clothes are naturally elastic and allow you to follow the body and its movements, and then return to their original shape. Merino wool clothing is therefore ideal for physical activity.

UTILIZATION

Created for those who do not give up training in the colder months and want a high quality sock with thermal properties.

SIZE
S - M (36 - 41)

SIZE
